The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/538,948	Applicant(s) OP'T ROODT ET AL.	
	Examiner Gary K. Graham	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-7, 11, 13 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5, line 3, there is no antecedent basis for “the base section”.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Lopez et al (US patent 3,626,544).

The patent to Lopez discloses the invention as is claimed. Lopez discloses a wiper device (fig.1) comprised of a non-articulated wiper blade (11) with wiper strip (14) having a wiper lip (15) arranged thereon. A coupling part (30) interconnects the blade with a wiper arm (not shown but disclosed). The wiper strip includes grooves (17,18) therein which receive spring rails (19,20). A

fastening clip (10), which acts as a locking device, can be fixed on an upper side of the wiper strip. The clip cooperates in a detachable fashion with an underside of connecting bridge (31), formed on the end of the part (30), via limit stop hooks (54) and spring tongues (53). The connecting bridge connects the spring rails together. The clip fixes the spring rails in the wiper strip when engaged with the bridge and enables longitudinal displacement of the spring rails in the guide grooves when disengaged from the bridge. Note that pressing the spring tongues by part (59) against an upper side of the wiper strip will act to disengage the clip.

Allowable Subject Matter

Claims 3 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 6, 7, 11, 13 and 15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
